Abstract (en)

[origin: WO2012076858A1] A building (1) and a building services module (3) arranged to provide a plurality of different building services such as heating and/or cooling for the building, ventilation, energy recovery, hot water, or thermal storage. The module (3) is accessible from outside the building (1) such that maintenance and/or inspection of the module (3) can be conducted without requiring access to the building (1).
