Abstract (en)

[origin: WO2012076327A1] The invention relates to a conductor foil (10) for a negative electrode of a lithium-ion accumulator comprising at least one lithium-ion cell. Said conductor foil (10) comprises an aluminum foil (11) both sides of which are covered by a metal layer (12) consisting of copper or nickel. The invention further relates to a lithium-ion accumulator and to a motor vehicle comprising a lithium-ion accumulator.
