Abstract (en)

[origin: EP2650052A1] The spray gun has a powder cup (3) that is arranged at the rear end to an injector (2) in a receiving portion (2.1). A powder inlet of the injector is connected to the receiving portion. The powder cup is plugged in the receiving portion. A handle (10) is provided with air feed terminal (5), atomizer air terminal and an air dosing terminal (6). The air feed terminal and air dosing terminal of the handle are connected to the injector through air line for dosing air and air line for feeding air.
