Abstract (en)
[origin: EP2650451A1] The flexible wall module has a base (6) and a frame (5), where the base is formed of aluminum profile (1) in the form of a rectangular solid. The frame is situated on the base. The base and frame consist of pluggable aluminum profiles. The frame is formed in the shape of a quadrilateral with four right angles and variable subdivisions are formed by additional aluminum profiles. The base and the frame are provided with a modular cladding (3). The modular cladding consists of fabric, leather, velvet, Plexiglas (RTM: Light-transparent, weather-resistant thermoplastic) or metal foils.
