Abstract (en)

[origin: EP2650608A2] The device has an elongated base portion (2) that is arranged with two conductors in a form of bus bars. Adapters (1,11) are fastened at base portions through apertures (2a) formed in long sides of base portions. Electrical contact portion of adapter is electrically interconnected with conductors through aperture. A lamp (3) is arranged between two spaced apart base portions. Front end of the lamp is fastened with the adapter and supplied with electrical power.
