Abstract (en)
[origin: WO2012080156A1] The invention relates to an operator control apparatus for a domestic appliance (1), having an electronic display panel (11) and an operator control element (13) which can be moved relative to the display panel (11) in order to adjust operating conditions of the domestic appliance (1), wherein the operator control element (13) has an annular front part (17) which has an upper face (18) which is inwardly inclined. The invention also relates to a baking oven (1) having an operator control apparatus (10).
