Abstract (en)  
[origin: WO2012080357A1] In order to provide a kit for a dryer section (144) of a dryer (100), by means of which kit a dryer section of the dryer can be transported in a particularly space-saving manner to an installation site of the dryer and assembled from a particularly small number of parts, according to the invention the kit comprises at least two components (146, 146a, 146b, 146c), wherein at least one left side wall component (146, 146a) comprises a left side wall section (112) of the dryer, wherein at least one right side wall component comprises a right side wall section (114) of the dryer, and wherein at least one component comprises a base wall section (108) and/or a ceiling wall section (110) of the dryer and a conveyor unit (104) of a conveyor device (103) for conveying workpieces to be dried through the dryer in the assembled state of the dryer, wherein the dryer section of the dryer can be assembled from the at least two components of the kit (148) at an installation site.
