Abstract (en)  
[origin: WO2013091618A1] The invention relates to a vehicle door (1) for armoured vehicles, comprising a locking device (5) arranged on the inner face of the door for locking against unintentional opening under the effect of a blast, wherein the locking device (5) can be removed from the outside when the vehicle door (1) is closed. The invention further relates to a vehicle door structure (1) for armoured vehicles comprising a vehicle door, wherein the vehicle door (1) has a locking device (5) arranged on the inner face of the door for locking on at least one counterpart lock plate (18) against unintentional opening under the effect of a blast, and wherein the locking device (5) or at least one counterpart lock plate (18) can be removed from the outside when the vehicle door (1) is closed.
