Abstract (en)

[origin: WO2012083414A1] A method for treating or preventing obesity or to facilitate weight loss, particularly in overweight individuals with a body mass index (BMI) of about 25 or greater or in obese individuals with a BMI of about 25 or greater, as well as nutraceutical or pharmaceutical compositions and supplements therefor. The methods involve administering to a subject in need thereof a therapeutically effective amount of cannabis, at least one cannabinoid or derivative thereof, an extract prepared from at least one cannabis plant, or a combination thereof.
