Abstract (en)

[origin: WO2012085491A1] The invention relates to the cosmetic use of a glucan biopolymer obtained from Manihot esculenta as a cosmetic active principle for instant skin tightening, and to a cosmetic skincare method. The invention also relates to a specific active principle provided in the form of a glucan polymer obtained from Manihot esculenta, to the method for obtaining said active principle, and to the cosmetic compositions including same.
