Abstract (en)
[origin: WO2012084540A1] Electrical connection apparatus (1), which is provided for connecting an electrical conductor (2) to a plug-type apparatus or another electrical assembly, wherein the connection apparatus (1) has an electrical contact part (4) for connecting the electrical conductor (3) to the electrical assembly, and a compression spring (7) for fixing the electrical conductor (3) on the electrical contact part (4), wherein an actuating device is provided, with which the compression spring (1) can be positioned against the electrical conductor (3), characterized by a connection housing (6), against which the actuating device (8) is guided movably.
