Abstract (en)

[origin: EP2657443A1] The window (100) has a frame (200) and a double glazing (300) whose periphery is placed in the frame. The glazing includes an external pane (302) that is intended to be turned towards outside of a dwelling. The glazing includes an interior pane (304) and a cap (500) manufactured in an insulating material. A separator (600) presents a section having a C-geometry. The separator covers the cap to delimit an external compartment (T1) and an interior compartment (T2) in the frame, and the cap takes seat in the frame.
