Abstract (en)

[origin: EP2657613A2] The door has a doorframe (1) that is provided with a glass panel (2) that is provided with hinges (5,6,8,9) that is provided along a lower horizontal axis (4) and is tilted along vertical axis (7). The actuating elements (11,21) are provided in pushrods (15,25) in the position in which the hinge is latched with the doorframe and in the position in which the hinge is disengaged from the doorframe. The pushrods are arranged perpendicular to the doorframe. The inner end of actuating element is engaged into a driver.
