Abstract (en)
[origin: WO2012089543A2] The invention relates to a hob (110) comprising an electronic printed circuit board (420) which has a display and/or control element (425) and is fixed to at least one mounting element (210) in a circuit board housing (200). The mounting element (210) is designed as a spring element in order to press a surface of the display and/or control element (425) onto the inner surface (160) of a hob cover (117).
