Abstract (en)

[origin: WO2012150210A1] The invention relates to a sign for displaying information, in particular a traffic sign (10), having a retroreflective layer (12) which is connected securely to a rigid carrier plate (11). According to the invention, a transparent, at least partially printed adhesive film (13) is arranged in a re-detachable manner on the retroreflective layer (12).
