Abstract (en)
[origin: EP2659817A2] The nozzle (100) has a nozzle casing (110) provided with a floor cleaning roller movable inside and outside of nozzle casing and rotatable with respect to nozzle casing during an operation of floor cleaning device around a rotational axis (270). A cylindrical portion (250) is extended over 25% of width of nozzle casing, parallel to rotational axis, during operation of floor cleaning device. The floor cleaning roller and cylindrical portion are arranged such that the floor cleaning roller is contacted with the cylindrical portion when moving inside and outside of nozzle casing.
