Abstract (en)

[origin: EP2662636A2] The intermediate element (5) has an inner frame (3) and a viewing hood (4). A collar portion (50) is provided with a front wall (503) and two side walls (504). The top face of collar portion is connected with inner frame through an upper interface. The bottom face of collar portion is connected with viewing hood through a lower interface. The height of the rear wall (51) is set greater than height of collar portion. The intermediate element is made of metal sheet.
