Abstract (en)

[origin: WO2012099469A1] Mobile fuel delivery unit for compressed natural gas, comprising : a storage tank for liquid natural gas, a gas delivery system for compressed gaseous natural gas, a feed conduit from storage tank to gas delivery system, which feed conduit is provided with an inlet valve, wherein the gas delivery system comprises at least the following components: an evaporator, a high-pressure pump, a gas dispensing unit downstream of evaporator and high-pressure pump, wherein the components are connected in series to each other by conduits, and wherein the assembly of storage tank and gas delivery system forms an integrated whole, this assembly being suitable for transport.
