Abstract (en)
[origin: WO2012097800A2] A sensor assembly has a metallic base plate (2) and a plastic sensor housing (3) which accommodates at least one sensor element. The sensor housing (3) is connected to the base plate (2) by means of at least one screw (5), which is guided through a passage opening (6) in the base plate (2). A screw-connection channel (7) in the sensor housing (3) is predefined by the housing material. What results is a sensor assembly in which the screw connection is secure.
