Abstract (en)

[origin: US2012195526A1] An easy-open and reclosable package includes a pouch including a discrete strip, between first and second side panels, including a sealing segment, a backing segment, and an intermediate layer including a pressure sensitive adhesive; a first portion of the strip anchored to the first panel at a first location, and a second portion of the strip anchored to the first panel at a second location; a die cut in the first panel defining a die cut segment, so arranged that when the package is opened, the sealing segment is partially removed from the discrete strip, the intermediate layer comprising a pressure sensitive adhesive is partially exposed, and the package can be reclosed by adhering at least one of the first and second panels to the adhesive; and a product in the pouch.
