Abstract (en)  
A clothing structure comprises a clothing body 10 and two sleeves 20. The clothing body 10 includes two upper shoulder portions 11, which extend from the neck to two sides, and are provided with shoulder-free 13 and armpit-free portions 14. The armpit-free portion 14 extends to the lower armpit 12. Two sleeves 20 are formed at the outsides of clothing body 10 and including two sleeve bodies 21. A shoulder mend portion 23 and an armpit mend portion 24 are formed respectively adjacent to the sides. The shoulder mend portion 23 and the armpit mend portion 24 are corresponding, and joined to the shoulder-free portion 13 and the armpit-free portion 14 as a joint 15. The armpit mend portions 24 include an armpit arm side 241 and an armpit body side 242, and portions extend respectively from the sleeve bodies 21 and the clothing body 10 that are opposite to the armpits 12 to form an included angle. The armpit mend portion 24 is made of functional fiber covering lower portions of armpit 12 for decreasing perspiration, inhibiting bacteria growth, and eliminating body odor.
