Abstract (en)

[origin: EP2670004A1] The connection device assembly (1) has electrical module (2) that has electrical terminals (31,32) and/or connection, measurement and/or control electronics, and is replaceably arranged in a mounting rail (4). An attachment rod has a loosened fastener which is carried out through a recess of the housing portion (22). The electrical module has assembly modules that are contactedly arranged on the housing portion, in a mounting state in which fastener not secured by recess is carried out, and the assembly module fixed to the housing portion is rotatable.
