Abstract (en)

[origin: WO2012104562A1] The invention relates to a case (1600) for protecting valuable objects provided so as to be worn by a living being, including: a bottom portion (1604) and a lid portion (1602) defining at least one compartment (1606) for holding one or more objects to be protected therebetween, a means (1610) for closing the lid portion onto the bottom portion, and a so-called outer attachment means (1630) for attaching said case (1600) around a body part of a person, said case (1600) also including, on at least one of the outer walls of the bottom portion or of the lid portion, a so-called securing portion (1646), provided for securing or securely inserting said case (1600) onto a base provided for this purpose.
