Abstract (en)
[origin: WO2012104015A2] The invention relates to, in particular, an explosive exercise projectile comprising a single-pieced casing and having the characteristic detonation, flash, smoke etc of an original explosive projectile. According to the invention, said explosive exercise projectile is transferred into a multi-part projectile casing (5, 15, 25) such that said newly configured projectile (1, 11, 21) also has the explosive projectile characteristics when being used.
