Abstract (en)

[origin: EP2672047A2] The arrangement (1) has a guide rail (2) for mounting at a door leaf, a trim and a wall. A moving element (5) is linearly moved into the guide rail in a driving direction (7). A fixing device (8) fixes the moving element relative to the guide rail. A permanent magnet (11) is fixedly arranged opposite to the guide rail. Another permanent magnet (12) is firmly connected with the moving element. The former magnet is firmly connected with the moving element. The latter magnet is fixedly arranged opposite to the guide rail. The latter magnet is permanent magnetic or ferromagnetic. An independent claim is also included for a door actuator arrangement.
