Abstract (en)
The brush has a cleaning head (2) comprising a base plate (3), and cleaning units e.g. bristles (5), arranged at the cleaning head, where the base plate has a larger expansion in a main extending level than in a transverse direction. The base plate comprises an edge area (3a) that is differently and easily bendable in both transverse directions to the main extending level of the base plate. The cleaning units have a non-circular form in the cross section, and the base plate is formed as a single piece with a handle.

Abstract (de)
Um gekrümmte, insbesondere konkav gekrümmte Flächen reinigen zu können, ist der Reinigungskopf der Bürste mit einem plattenförmigen Grundkörper ausgestattet, auf dem die Borsten vorzugsweise nach oben und nach unten abstehen, und der in seinen Randbereichen wesentlich flexibler als in seinem zentralen Bereich ist.
