Abstract (en)
[origin: EP2674663A2] The device (1) has multiple lighting units (3) i.e. LEDs (8), arranged in series at an elongated fastening profile (2) in a longitudinal direction. The lighting units are arranged next to each other and spaced from each other by predetermined breaking points (9). The fastening profile comprises incisions (11) i.e. slots, that are associated with the predetermined breaking points. The incisions run transverse to the longitudinal direction. The fastening profile comprises an assembly leg (6) and a holding leg (4) for supporting the lighting units.
