Abstract (en)

[origin: WO2012110293A2] The invention relates to a domestic appliance having an appliance door (1), of which the door handle (3) has a handle piece (7) which is connected to the appliance door (1) by means of at least one handle piece holder (5). According to the invention, the handle piece holder (5) has a decorative element (18) which covers the handle piece holder (5) substantially such that it is hidden from view and which, in particular, can be fitted on the handle piece holder (5) as a separate component.
