Abstract (en)

The present invention refers to a shower box (1) comprising: - a main structure (3) defining partially at least a shower compartment (2) on an inner side thereof; - one or more support members (9) connected to the main structure (3); - one or more additional elements (8) associated to the main structure (3) on its inner side and/or on an outer side opposite to the inner side by means of said one or more support members (9); - means (10) for connecting the one or more additional elements (8) to the one or more support members (9). Support members (9) comprise a groove (12) and connecting means (10) comprise a fixing member (11) coupable to the groove (12) according to a free arrangement, wherein fixing member (11) is capable of sliding in groove (12), and according to a fixed arrangement, wherein fixing member (11) is capable of maintaining a fixed position in groove (12).
