Abstract (en)

[origin: EP2676777A1] The trimmer has a longitudinal gripping case, and an electrical motor is contained in the case. A U-shaped base (31) comprises a set of hooks (37, 38), and a blade (32) is fixed at the base. Another blade (33) is intended to move linearly back and forth with regard to the former blade. A guidance unit (34) is arranged interdependent of the latter blade, and is intended to receive an actuation unit i.e. pin. A compression unit (8) or metal blade is arranged at a locking end (EV) opposed to a cut end (EC) so as to maintain a head on the case by clippings.
