Abstract (en)

[origin: WO2012113749A1] The invention relates to an assembly for packaging and mixing cosmetic products, comprising: - a container containing a first cosmetic product, - a means for dispensing a portion of the first cosmetic product onto a mixing surface connected to the container, - a packaging means which is fitted on a holder connected to the container and has at least one compartment containing a dose of a second cosmetic product. According to the invention, the packaging means is designed to discharge all of a dose of second product contained in a compartment over the mixing surface.
