Abstract (en)
[origin: WO2012115574A1] Shelf arrangement (1) comprising a base part (10), which is designed to be mounted substantially vertically on a wall, a stand, a rack or the like, and at least one shelf part (20), which is designed to be fixed releasably to the base part. The base part (10) is made from a sheet-like material and has a longitudinal direction and, at right angles to the longitudinal direction, a generally U-shaped cross section with a rear wall (11) and two forwardly projecting side walls (12, 13), which side walls are each connected to the rear wall along a respective connection line (12a, 13a) which is parallel to the longitudinal direction. The shelf part (20) is made from a sheet-like material and has a bottom wall (21) and a front wall (22), which is not parallel to the bottom wall. The shelf arrangement also comprises rear fixing means for fixing the shelf part releasably to the base part.
