Abstract (en)

[origin: WO2012113698A1] The invention relates to an especially efficient and user-friendly operating and display device (10) for operating a technical installation and for displaying data of the technical installation. The operating and display device (10) according to the invention is designed to receive image data acquired by a camera device, which data relate to a monitored area, and for the integrated display of the received image data on the operating and display device (10).
