Abstract (en)  
[origin: EP2679113A1] The bracelet has first and second magnetic circuit portions (11a,11b,12a-12f) each include soft ferromagnetic alloy yoke which is arranged transversely to bracelet and parallel to contact surface of end section in which magnetic circuit portion is integrated. First magnetic circuit portion has row of bipolar magnets that are arranged between yoke and contact surface of first end section (8). Second magnetic circuit portions are integrated in second end section (9) and are arranged parallel to each other, and spaced apart from each other so as to enable bracelet length to be selected.
