Abstract (en)
The control element (15) has a radio connection for data exchange with a household appliance (10), where the radio connection is a near-field radio connection. The near-field radio connection is set up for a maximum range of 1 meter. The near-field radio connection is a Near-field communication-radio connection. The near-field radio connection is designed for bi-directional transmission. The control element also has a display unit (18) and is inductively energized. An independent claim is included for a household appliance with an attachment surface.

Abstract (de)
Die Erfindung bezieht sich auf ein Bedienteil (15) für mindestens ein Haushaltsgerät (10) und ein Haushaltsgerät (10) damit, wobei das Bedienteil (15) mit einer Nahfeld-Funkverbindung zum Bedienen des Haushaltsgeräts (10) eingerichtet ist.
