Abstract (en)

[origin: WO2012116828A1] The invention relates to a method for producing at least one cutting line segment (10, 12) of a cutting line (14), comprising at least one cutter support element (16, 18) and one cutter element (20, 22), wherein in a first step at least one powder (24) is mixed with at least one binder (26) in a mixing device (28) to produce a feedstock (30).
