Abstract (en)  
Irrigation box, drainage box or attenuation box, comprising as integral parts of the box a base (4), at least one side wall (5a-d), several columns (7, 7a, 7b) and at least one connecting part (8, 8a, 8b). The base has openings (4a) therein for passage of fluid and the side wall(s) also have openings (5e) therein for the same purpose. The box has an open side (6) opposite the base which allows coupling with a further identical box. The connecting part is integral with the box and extends either between a column that is positioned free from direct contact with the side wall and a column which is in direct contact with the side wall, or between a column which is positioned free from direct contact with the side wall and the side wall itself.
