Abstract (en)

[origin: WO2012119730A2] The invention relates to a bicycle having at least one pedal 10 which can be detached without using a tool, and which can be attached to a theft-proof mounting 1 attached to the bicycle. According to the invention, a bicycle is provided which has at least one pedal 10 which can be detached without using a tool, and which can be connected reliably and in a fail-safe manner to a theft-proof mounting 1 attached to the bicycle. This is achieved by the fact that the theft-proof mounting 1 has a lock 3. 3a which can be locked to an axle 15 of the pedal 10.
