Abstract (en)
[origin: WO2012146837A1] The invention relates to the automatic reloading of the gas space of a hydropneumatic accumulator. A means (20) for readjusting the load of the gas space (13) includes a pressurized gas source (22), connected to a loading valve (17) via an air system (24), and a reinjection valve (26) controlled by a unit (27) for calculating a cycle for reinjecting gas into the gas space.
