Abstract (en)  
[origin: EP2684504A1] The package has a strip end cap (3) arranged at strips. The strip end cap and/or the strips are connected with each other and with an operating panel of a household appliance by a common screw. The screw penetrates through the end cap and/or the strips. The end cap includes keyhole slots (5), which include a central screw guide (6) and through holes (7) that are arranged lateral to the central screw guide. A diameter of the through holes is larger than that of a screw head of the screw. A guiding pin (8) points in a direction of the adjacent end cap.
