Abstract (en)
[origin: EP2687334A2] The apparatus (1) has a setting mechanism that is provided for setting nails. A bolt guide element (6) is provided to support on object (16) in which nail is introduced, so that bolt guide element is provided to set nails and to support main portion. A trigger (7) is provided for activating setting mechanism. A supporting foot portion (8) is provided with two supporting elements (9,10), such that three point support structure together with bolt guide element is obtained for supporting main portion.
