Abstract (en)
[origin: EP2689891A2] The two-disc machine has two actuators that are provided in each case through shaft (5, 6) driven with the working wheels (7, 8) such as lower working disc and an upper work pane. The planet-kinematic arrangement of movable runner disc configured for receiving workpiece. An upper portion of a machine frames (1,2) is provided directly or indirectly on the floor supporting the vertical sections (11,12) of monolithic unit from a hard rock.
