Abstract (en)  
[origin: WO2012131632A2] The invention concerns a system for stain removing, washing, drying and ironing treatment of garments and/ or washing of dishes in pre-existing plumbing fixtures like showers, bathtubs, combined shower - bathtub and shower - sauna, each provided with a protective stall. The system comprises a frame, composed of at least two posts (15) connected by a top crossbeam (16), placed inside the stall; collapsible or foldable hangers or models (18), assembled on the frame for hanging garments thereon; means (19, 20) for supplying and delivering a washing and rinsing fluid for garments supported by hangers or models (18); and means per supplying airflow in the stall for drying and ironing said garments, while the latter are hung up on said hangers or models. Alternatively to hangers or models, the system comprises plate-rack for dishes to be washed.
