Abstract (en)

[origin: WO2012130635A1] The invention relates to a connection device (10) for connecting an electrical conductor to a busbar or the like, having a connecting element, particularly a spring terminal for fixing the electrical conductor, having at least one actuating element (12) and having at least one marking device (M) for labeling, characterized in that the marking device (M) is disposed on the actuating element (12).
