Abstract (en)
[origin: EP2692258A1] The hood system (1) has a hood portion (20) that is provided with a upper head region (23), a neck region, two lateral regions (22) and a front region (21). The hood portion is coupled with an intended use harness portion (10) with a front portion (10S), two lateral portions (10L) and a rear head portion (10H). The two lateral portions (10L) of the harness portion are spaced from the front portion and are connected with the hood inner side (36) in the lateral regions and/or the upper head region of the hood portion in mounting position (B).
