Abstract (en)
[origin: WO2012137143A1] The present invention refers to a tool for the roughing and/or polishing of hard surfaces such as stone, marble or the like, of the type usable in association with hand- operated machines, such as an angle grinder or the like, for manual treatment of surfaces by an operator. In particular, it provides a roughing and/or polishing tool whose flexibility and safety level is extremely high.
