Abstract (en)
[origin: GB2489698A] A collapsible canopy structure comprises, in an erected configuration, a roof area structure and sidewalls extending downwardly from the roof area structure, including a docking arrangement permitting a vehicle to be positioned at least partly docked entered into the interior of the canopy. The docking arrangement may include a magnetic securing system for securing the canopy to the vehicle. Alternatively or additionally it may include a fold-over section of the roof area structure of the canopy which is folded over from a stowed position to cover an upper portion of the vehicle. A method of working on a vehicle includes docking a vehicle within a canopy in which the canopy is secured along the roof and sidewalls of the vehicle to provide a controlled working environment. The canopy may be mounted on the roof of a vehicle for transportation.
