Abstract (en)  
[origin: WO2012129846A1] A method for data transmitting and displaying includes: presenting comprehensively, by a data processing party (710), information about data displaying parties (730); selecting a data displaying party (730) according to the presented information about the data displaying parties (730) and uploading data to be displayed, by a data provider (720); instructing, by the data processing party (710), the selected data displaying party (730) to display the data uploaded by the data provider (720), establishing a direct link between the data provider (720) and the selected data displaying party (730), and granting a permission for the data provider (720) to adjust the data displaying of the selected data displaying party (730). A system for data transmitting and displaying is also disclosed. By using the method and system of the present invention, the flexibility in data transmitting and displaying is improved, the efficiency of data transmitting and displaying is effectively improved, and the system resource is saved.
