Abstract (en)
[origin: CA2826448A1] Plug-type connector for producing at least one electrical contact, in particular charging plug or heavy-duty plug, comprising a housing (10) and comprising at least one first contact element (12) arranged in the housing (10), wherein the housing (10) has a plugging-side end (14), which is designed for plugging connection to a complementary plug-type connector, and wherein the at least one first contact element (12) has a free end (18), which faces the plugging-side end (14), wherein at least one first contact element (12) of the plug-type connector and at least one part of the housing (10) are movable relative to one another between a first position, in which the first contact element (12) is withdrawn into the housing (10), and a second position, in which the free end (18) of the first contact element (12) is exposed.
