Abstract (en)
[origin: EP2698076A1] There is provided an element (202) for a work surface (204) and an arrangement including one or more elements. The element comprises opposite faces and the element (202) is being arranged to be installed in a first position with respect to the work surface (204) and in a second position with respect to the work surface, in which first position and second position different opposite faces are out on the work surface. The element comprises screen work accessories (210) on one of the opposite faces, whereby in the first position of the element the screen work accessories are out on the work surface and in the second position of the element the screen work accessories reside underneath the work surface.
